

Apprenticeship / Electronics Technician for Industrial Engineering (m/f/d)

Description

To ensure smooth and trouble-free operations in the company, electronics technicians for industrial engineering are constantly on the move. They are responsible for the installation, maintenance, and repair of electrical systems within the company, as well as tasks related to power supply, lighting, and communication technology throughout the facility.

Responsibilities

During the three-and-a-half-year apprenticeship as an electronics technician for industrial engineering at JagoTech Paper, you will gain diverse insights into the relevant areas and tasks.

Qualifications

A good technical understanding and skill in practical tasks are key prerequisites for starting your apprenticeship with us. You should impress us with strong school performance, be a team player, and work carefully and thoroughly.
