

Apprenticeship / Paper Technologist (m/f/d)

Description

The responsibilities of paper technologists include operating and maintaining equipment and machinery for paper production, as well as monitoring the production process of paper, pulp, cardboard, or carton. They check the quality of the end products and know how to resolve any issues that arise. In the highly specialized paper industry, paper technologists are indispensable.

Responsibilities

You will acquire the necessary technical knowledge during the two- or three-year apprenticeship at Jagotech Paper.

Qualifications

A strong technical and mathematical understanding provides excellent foundations for this apprenticeship. In addition, you should work responsibly, be willing to work in shifts, and be a team player.

Hiring organization

JagoTech Paper GmbH
